

Public Utilities Corporation

Vacancy

Post Title: Technician (Wind Farm)

Division: Electricity

Duties and Responsibilities

- Maintain, repair, install and renew electrical, mechanical and hydraulic systems in wind turbine safely and efficiently.
- Liaise with other technicians for safe and efficient maintenance and operations of equipment in Wind turbine and its auxiliaries.
- Climb Wind Turbine towers to inspect, maintain or repair equipment.
- Perform routine maintenance and checks on wind farm and its auxiliaries.
- Guide, train and educate junior staff.
- Ensure work is performed according to environmental and safety requirements.
- Maintain the records and stock of all the tools and safety equipment used on the wind turbine section. Also ensure the tools and safety equipment are kept at the best possible condition at all times.
- Maintain and clean all the electrical and mechanical systems associated with the renewable energy plant.
- Perform work independently or with other technicians and engineers.
- Attend to emergency callout in case of faults.

Qualification and Experience

- Certificate in Electrical Engineering/Mechanical Engineering or any other equivalent.
- 3 years' experience in the electrical or mechanical field or relevant experience.
- Physically and mentally fit to climb the turbine towers.
- Unafraid of heights and confined spaces.

Interested candidates, should forward their applications on the prescribed form (which can be downloaded from the PUC website www.puc.sc or collected at the Reception Desk at Maison De Malavois, Bois De Rose Avenue), with a covering letter including certificates and references to: The Human Resources Manager, Public Utilities Corporation, Maison De Malavois, P.O. Box 174, Mahé or via email to recruitment@puc.sc not later than: Monday 2nd August 2021.
